

# GENTLE

We drew inspiration from catwalks around the world when creating the poses in our GENTLE line. Their semi-abstract contemporary design and a hint of sex appeal make GENTLE the perfect mannequins to highlight haute couture and high-end clothing. The male and female GENTLE mannequins are striking on their own and even more captivating when shown together. The pair creates an enticing scene in shop windows and at the point of sale. We developed abstract and semi-abstract heads especially for GENTLE that compliment the line's unique aesthetic, but as with most GENESIS mannequins, the poses can be paired with any other head from our wide range of products.
