

ELLE

As we enter a new decade, we see more and more designers showcasing a variety of body types in their campaigns. With a fuller silhouette in European sizes 38/40, ELLE fits right into this new narrative. Confident, charismatic poses make ELLE a perfect model for classic women's fashion while the line's feminine curves are ideal for showing off lingerie. ELLE is available in several cup sizes and can be ordered with a realistic look including make-up and a wig or in abstract variants combining any number of colors or finishes.

The standard bra size for ELLE mannequins is 80C. However, on request all mannequins are available with bra size 75A.

Measurements	EU	US
