

IDOL

The IDOL female range is an eyecatcher with gentle, seductive poses. The semi-abstract mannequins represent young, style-conscious women who shop fashionable labels. IDOL female mannequins have a simple, unique look that will capture a customer's attention but keep their eyes on your clothing. IDOL thrives in everything from haute couture to high-end denim and lingerie. These mannequins are available with a variety of heads and can be adapted to fit the customer's requirements for colors and finishes.

IDLF-02, -03 and -04 are also available with turnable heads - see head overview.
