

VARIO

Sports and an athletic lifestyle are now a mainstay in the fashion world. The mannequins in our VARIO range are incredibly versatile and can be altered to fit any sport in your product line. Start with one body and choose from six arm positions and three leg positions to create the perfect sport, basic, or lifestyle mannequin for your brand. Each VARIO mannequin part is interchangeable so you can present your product just the way you like it. Both the male and female mannequins have a strong presence whether shown individually or in a group.
